Gravity plate testing is a simple, inexpensive, basic screening method that allows you to test for mold yourself. Your medical professional may request this test to help determine if your environment may be affecting your health. If you are testing for other reasons, you should contact a certified environmental inspector to perform more extensive testing with bio-aerosol sampling equipment.

Results will be posted to your account at **www.MoldTestResults.com**. You will receive notification by email when your report is ready. Hard copy by fax or mail is \$5.00 extra. Allow 14 days to process and post reports. Results can be accessed by your doctor, pharmacist and/or environmental company unless checked below.

☐ I would like to take advantage of the free consultation (maximum 20 minutes) with your Consultant Pharmacist. I can be reached between 8:00 am and 5:00 pm at (\_\_\_\_\_) \_\_\_\_\_. We suggest you make a list of any health and environmental questions prior to the scheduled call to ensure that all of your concerns are dealt with in an efficient manner.

☐ **PLEASE DO NOT ALLOW ACCESS TO MY RESULTS TO ANYONE BUT ME.**
